Before we can further process it you are kindly requested to make the following corrections to meet the journal's requirements (please also refer to the instructions for authors): Please kindly include the following sections in the main manuscript file: 1. Title page - Please include a title page as page 1. The title page should include the title, authors, author affiliations, corresponding author details and complete co-author email addresses. 2. Competing Interests - Please include a Competing Interests section. If the authors have no competing interests, please state: "The authors declare that they have no competing interests." 3. Authors' Contributions - Please include an Authors' Contributions section. We suggest the following kind of format (please use initials to refer to each author's contribution): "For example: "AD carried out the genetic studies, participated in the sequence alignment and drafted the manuscript. JY carried out the immunoseq; MT participated in the sequence alignment; ES participated in the design of the study and performed the statistical analysis; EG conceived of the study and participated in its design and coordination and helped to draft the manuscript. All authors read and approved the final manuscript." 4. Consent - During submission, you have answered "Yes" to the question "Does your manuscript report data collected from humans or animals?" Regrettfully, we have not been able to locate a statement of Declarations: Consent or ethics approval with your manuscript. Could we please ask you to include one of the following, as appropriate: - a statement of ethics approval with the committee's name and reference number if appropriate - a statement on consent to participate under the "Ethics, consent and permissions" heading - a statement under the "Consent to publish" heading confirming that consent to publish has been obtained from the participant (or legal parent or guardian for children) to report individual patient data.
